

ISHANT SHRIVASTAVA

ishantshrivastava778@gmail.com | +91 6266826122 | linkedin.com/in/ishant-shrivastava-481b45255 | github.com/KIshantS2525

Software Engineer focused on AI/ML, Computer Vision, LLMs, and Generative AI. Experienced in developing scalable AI applications, production ML pipelines, RAG systems, and full-stack platforms using Python, FastAPI, React, Docker, and AWS.

PROFESSIONAL EXPERIENCE

Ascentt AI Tek Pvt. Ltd., Indore — Software Developer – AI/ML & CV

May 2025 – Present | Trainee: Feb–Apr 2025

- HRTAL Copilot:** Power BI-embedded HR analytics chatbot with schema-only LLM pipeline, 8-layer security model, RBAC, hybrid BM25 + FAISS search, persistent ChromaDB sessions, and sandboxed pandas execution. Deployed via Docker on AWS EC2.
- PPE Compliance System (Amazon re:Invent):** 5 specialized YOLOv8 models (helmet, vest, gloves/boots, fire, person) achieving ~85% accuracy. Face recognition for employee tracking. React.js dashboard with live feeds and fire alerts.
- Engine Testing Forecasting (VECV):** Generated 5000+ synthetic cycles via Transformer-VAE. Informer model achieved $R^2=0.849$, reducing test cycle time by 15–20%.
- Asc-CADence:** FastAPI + Gemini AI pipeline automating FEA analysis and STEP model modification. Improved CADomatic accuracy from 60% to 75% via prompt engineering.
- Auro Nova (AR/VR POC):** Adapted TRELIS pipeline for multi-view 3D reconstruction on CPU/Colab. Automated mesh colour modification, reducing asset creation cost by ~40%.

Uoons Ecommerce Pvt. Ltd. — Flutter Intern

May 2024 – Jul 2024

- Integrated 15+ API endpoints (<300ms), designed 30+ UI screens, and implemented 25+ features across seller and partner apps.

PROJECTS

- Anuvaad – Multilingual AI App:** Flutter + backend supporting text/speech/audio/image/video translation across 14 languages. AI-driven press-release-to-video pipeline. 100+ Play Store downloads.
- Dark Pattern Buster (IIT-BHU Hackathon):** Chrome extension using Logistic Regression + SVM to detect manipulative UI patterns. Top 25 Finalist.
- Kisaan Vani – IoT + ML:** Random Forest crop recommendation system trained on 108 varieties using real-time IoT soil parameters (NPK, moisture, pH).
- DiagramStudio – AI Diagram Generation:** Converts plain English into live, interactive architecture diagrams. Built custom DiagramDSL (lexer, parser, resolver), FastAPI backend, React + D3.js + ELK frontend, and real-time multi-user collaboration.
- OmniTrace – LLM Observability Platform:** Local-first, open-source observability platform for LLM applications, tracing calls, costs, prompts, and execution graphs. Python SDK with OpenAI, Anthropic, Gemini, Ollama, and LangChain integrations.
- Recall (Snapdragon Multiverse Hackathon, Qualcomm):** Multi-device synchronized AI memory system running on-device inference across a Snapdragon AI PC, Snapdragon smartphone, and Arduino UnoQ via QAI RT.

SKILLS

AI/ML:	YOLOv8/v10, Detectron2, SAM, OpenCV, Face Recognition, Informer, GRU, LSTM, XGBoost
GenAI:	GANs, VAEs, Transformer-VAE, TabDDPM, Diffusion Models, Synthetic Data Generation
LLMs & RAG:	Gemini, Qwen, Mistral, LangChain, ChromaDB, FAISS, BM25, Prompt Engineering
Backend:	FastAPI, Python, REST APIs, PostgreSQL, Flask
Frontend:	React.js, TypeScript, Flutter, Power BI Custom Visuals
MLOps:	MLflow, Docker, Jenkins, GitHub Actions, AWS EC2

ACHIEVEMENTS

- PPE Compliance System presented at Amazon re:Invent.
- Top 25 Finalist – Dark Pattern Buster Hackathon 2023 (IIT BHU).
- Selected – IIT Drishti Shakti 2.0 Ideation Program.
- Selected – Snapdragon Multiverse Hackathon, Qualcomm (Noida)

EDUCATION

B.Tech – AI & ML, Acropolis Institute of Technology & Research, Indore (RGPV) CGPA: 7.3/10	2021 – 2025
Class XII – Small Wonders Sr. Sec. School, Jabalpur (CBSE) 82%	2021
Class X – St. Michael's Sr. Sec. School, Satna (MP Board) 88%	2019
